

## Océ Client Tools System Requirements

Recommended Minimum System Specifications	
<b>CPU<sup>1</sup></b>	Meets the minimum requirements of the operating system
<b>Operating System<sup>2</sup></b>	Windows XP Professional Edition (32-bit) Windows Vista Business Edition (32-bit)
<b>RAM<sup>3</sup></b>	1 GB
<b>Hard Disk Space</b>	70 MB of free space 128 MB of swap space
<b>Network Card</b>	100/1000
<b>CD ROM</b>	Recommended
<b>Internet Browser</b>	Microsoft Internet Explorer 7.0 or higher
<b>AutoCAD<sup>4</sup></b>	AutoCAD 2002 – 2009 (if processing native DWG files)
<b>Internet Connection</b>	256 Kbps or greater

### Notes regarding AutoCAD support

- A minimum of 2 GB of memory is recommended.
- The installed AutoCAD version must be as new as or newer than the version used to create the DWG files being processed.
- AutoCAD software is not required for DWF file processing.
- AutoCAD Lite is not supported.

<sup>1</sup> Using multi-core processor technology can significantly improve performance.

<sup>2</sup> Operating system versions not specifically listed here are unsupported.

<sup>3</sup> 2 GB is strongly recommended for Windows Vista.

<sup>4</sup> Systems on which AutoCAD is installed must meet the minimum requirements specified by Autodesk.
